1.2. Widget Table

Footnote	Note
1	Header > Site will be a copy of existing site, using sub-domain. We do this to prevent any attack. So we will just duplicate site, empty content appart from our part, and make sure links go back well to standard site when needed to make transitions smooth.

2. BACKEND for managing submissions

2.1. User Interface

Submissions (Candidatures)						
<div> <div>1</div> <div>Search by name, email, Proj. title</div> <div>4</div> <div>Get PDFs for available & checked lines</div> </div>						
2	Project title ▲	Contact email ▲	Contact first name ▲	Contact last name ▲	Valid ▲	Date of submission ▲
<input type="checkbox"/>	Project abc 3	marc@webstorm.fr	Marc	Signorel	1	29/10/2019 Get PDF
<input type="checkbox"/>	Disco Night	josephine@yahoo.fr	Joséphine	Coriat	0	22/08/2019

2.2. Widget Table

Footnote	Note
1	Could be a search box above each field if simpler.
2	check / uncheck all on this page
3	On click , opens up project page as if you were client (ability to update / Modify as if you were client)
4	Should generate PDF one after the other in a private folder on S3, so that we can retrieve PDFs in mass. Propose any enhancement, should be simple and not charge server too much (it will be a nice but standard hosting).

3.2. Widget Table

Footnote	Note
----------	------

Footnote	Note
1	Check for errors
2	Check for errors
3	Let this button for final confirmation be useable only if : - Profile is stored (without errors) - Project is stored (without errors) PDF is not required to be ok. - At least one media file has been uploaded successfully.
4	Size to be set, could be 2 or more Go for handling Videos.
5	Allow Photo / Video upload not using site's server > directly AWS S3.
6	Image / video thumbs can be called from S3 or stored locally, whatever is simpler.
7	Allow Photo / Video upload not using site's server > directly AWS S3.
8	Image / video thumbs can be called from S3 or stored locally, whatever is simpler.
9	We need to have a comment per Media file > Long text fields with basic Wysiwyg handling. For EACH. To be added to PDF output.
10	Make sure to handle basic line breaks or add basic Wysiwyg.
11	Make sure to handle basic line breaks or add basic Wysiwyg.
12	Make sure to handle basic line breaks or add basic Wysiwyg.
13	Make sure to handle basic line breaks or add basic Wysiwyg.
14	Make sure to handle basic line breaks or add basic Wysiwyg.
15	Size to be set, could be 2 or more Go for handling Videos.
16	Check for errors
17	Make sure to handle basic line breaks or add basic Wysiwyg.
18	Make sure to handle basic line breaks or add basic Wysiwyg.
19	Make sure to handle basic line breaks or add basic Wysiwyg.
20	Allow Photo / Video upload not using site's server > directly AWS S3.
21	Image / video thumbs can be called from S3 or stored locally, whatever is simpler.
22	We need to have a comment per Media file > Long text fields with basic Wysiwyg handling. For EACH. To be added to PDF output.
23	This inför icon will open / Close the lower text bow, giving information on what to do in this section. Will be same for all sections (texts differents, easy to update by us, even in HTML)
24	This is description text to be shown (open) when click on the upper (i) icon. Should hanbdle HTL in case we need to add any link or image.
25	This inför icon will open / Close the lower text bow, giving information on what to do in this section. Will be same for all sections (texts differents, easy to update by us, even in HTML)
26	This inför icon will open / Close the lower text bow, giving information on what to do in this section. Will be same for all sections (texts differents, easy to update by us, even in HTML)
27	This inför icon will open / Close the lower text bow, giving information on what to do in this section. Will be same for all sections (texts differents, easy to update by us, even in HTML)
28	This inför icon will open / Close the lower text bow, giving information on what to do in this section. Will be same for all sections (texts differents, easy to update by us, even in HTML)
29	This is description text to be shown (open) when click on the upper (i) icon. Should hanbdle HTL in case we need to add any link or image.
30	This is description text to be shown (open) when click on the upper (i) icon. Should hanbdle HTL in case we need to add any link or image.
31	Those medias are for explaining what artist has done in the past, at least one media to be set (to unlock submission button)

Footnote	Note
32	Those medias are for explaining current projet candidate. At least 10 medias to be set (to unlock submission button)

4. PDF

4.1. User Interface

4.2. Widget Table

Footnote	Note
----------	------

Footnote	Note
1	Allow Photo / Video upload not using site's server > directly AWS S3.
2	Image / video thumbs can be called from S3 or stored locally, whatever is simpler.
3	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
4	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
5	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
6	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
7	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
8	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
9	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
10	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
11	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
12	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
13	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
14	Full width images in order to have a readable printed doc. Also link to the images / Video on click (or additional link under image if easier).
15	Has to have page numbers on total pages (Eg 1 / 8) and project name on top of each page to avoid mistakes if many printed pages.
